1. Discussion of Quality of Life Roadway Project Prioritization:

- Committee offered several criteria for ranking quality of life roadway projects, giving priority to roadways with: similar abutting roadway cross-sections, ease of project completion, large number of suggestions from survey, gateways, current or planned transit service and high average daily traffic.
- The committee also asked WMPO staff to develop and “ugliness factor” for roadways to include: utility poles, ditches, excessive signage, lack of trees, etc.
- WMPO staff agreed to refine the criteria and rank the projects using the criteria.

2. Discussion of Safety Roadway Project Prioritization:

- Committee agreed that the crash rate and/or exposure factor should be used to prioritize the safety roadway projects.
- WMPO staff agreed to refine the criteria and rank the projects using the criteria.

3. Other Business: None

4. Next Meeting: Next meeting was scheduled for March 3, 2010
